PREAMBLE

Section 13 (n), (aa) and (dd) of the Investments and Securities Act 2007, empowers the Securities and Exchange Commission (Commission) to protect the integrity of the securities market against all forms of abuse, fraudulent and unfair trade practices. Given the prominence Anti-Money Laundering/Combating Financing of Terrorism (AML/CFT) issues have assumed in International financial circle and the risks they pose to the financial market globally and Nigeria in particular, a comprehensive and stringent provision to fight this menace has become imperative.

Pursuant to the above, the Commission has issued this compliance manual to guide Capital Market Operators (CMOs) in the implementation of the Know Your Customer (KYC) and Customer Due Diligence (CDD) requirements for the capital market. The manual has been enriched by the enabling AML/CFT legislation enacted by Nigeria, using the FATF Recommendations, as a benchmark and some international best practices documents.

The manual would not only minimize the risk faced by the Market on laundering the proceeds of crime but will also provide protection against fraud, reputational and other financial market risks. Consequently, all Capital Market Operators are required to adopt a risk – based approach in the identification and management of their AML/CFT risk in line with the requirements of this manual.

Nigerian Capital Market Operators should note that these AML/CFT guidelines have prescribed sanctions for non-compliance with this Manual and other relevant anti-money laundering laws and regulations concerning CDD issues, non-remittance of prescribed reports as well as failure to keep appropriate records. It is, therefore, in their best interest to ensure compliance at all times consistent with the prescriptions contained herein.

Where this is not possible, a copy of evidence certified as providing a good likeness of the applicant could only be acceptable in the interim.

D. Recording Identification Evidence

- i. Records of the supporting evidence and methods used to verify identity are required to be retained for a minimum period of five years after the account is closed or the business relationship ended.
- ii. Where the supporting evidence could not be copied at the time it was presented, the reference numbers and other relevant details of the identification evidence are required to be recorded to enable the documents to be obtained later. Confirmation is required to be provided that the original documents were seen by certifying either on the photocopies or on the record that the details were taken down as evidence.
- iii. Where checks are made electronically, a record of the actual information obtained or of where it can be re-obtained must be retained as part of the identification evidence. Such records will make the reproduction of the

actual information that would have been obtained before, less cumbersome.

E. Concession in respect of Payment Made by Post.

- i. Concession may be granted for product or services (where the money laundering risk is considered to be low) in respect of long-term life insurance business or purchase of personal investment products. If payment is to be made from an account held in the clients' name (or jointly with one or more other persons) at a regulated Capital Market Operator, no further evidence of identity is necessary.
- ii. Waiver of additional verification requirements for postal or electronic transactions does not apply to the following:
 - a. products or accounts where funds can be transferred to other types of products or accounts which provide cheque or money transfer facilities;
 - b. situations where funds can be repaid or transferred to a person other than the original clients;
 - c. investments where the characteristics of the product or account may change subsequently to enable payments to be made to third parties.
- iii. Postal concession is not an exemption from the requirement to obtain satisfactory evidence of a client's identity. Payment debited from an account in the client's name shall be capable of constituting the required identification evidence in its own right.
- iv. Records are required to be maintained indicating how a transaction arose, including details of the Capital Market Operator's branch and account number from which the cheque or payment is drawn.
- v. The concession can apply both where an application is made directly to the Capital Market Operator and where a payment is passed through a regulated intermediary.
- vi. **Investment Funds:**

In circumstances where the balance in an investment funds account is transferred from one Funds Manager to another and the value at that time

is above US\$1,000 or N250,000 for an individual and N1 million for a body corporate and identification evidence has neither been taken nor confirmation obtained from the original Fund Manager, then such evidence shall be obtained at the time of the transfer.

25. **ESTABLISHING IDENTITY**

- iii. It is important to obtain the date of birth as it is required by the law enforcement agencies. However, the information need not be verified. It is also important for the residence/nationality of a client to be ascertained to assist risk assessment procedures.
- iv. A risk-based approach shall be adopted when obtaining satisfactory evidence of identity. The extent and number of checks can vary depending on the perceived risk of the service or business sought and whether the application is made in person or through a

remote medium such as telephone, post or the internet. The source of funds, how the payment was made, from where, and by whom must always be recorded, to provide an audit trail. However, for higher risk products, accounts or clients, additional steps shall be taken to ascertain the source of wealth/funds.

- v. For lower-risk transactions or simple investment products, there is an overriding requirement for the Capital Market Operator to satisfy itself as to the identity and address of the client.

1. Private Individuals Resident in Nigeria

The confirmation of name and address is to be established by reference to a number of sources. The checks shall be undertaken by cross-validation that the applicant exists at the stated address either through the sighting of actual documentary evidence or by undertaking electronic checks of suitable databases, or by a combination of the two. The overriding requirement to ensure that the identification evidence is satisfactory rests with the Capital Market Operator.

As an alternative or supplementary to documentary evidence of identity and address, the clients identity, address and other available information may be checked electronically by accessing other data-bases or sources. Each source may be used separately as an alternative to one or more documentary checks.
- ii. Capital Market Operators shall use a combination of electronic and documentary checks to confirm different sources of the same information provided by the clients.
- iii. In respect of electronic checks, confidence as to the reliability of information supplied will be established by the cumulative nature of checking across a range of sources,

preferably covering a period of time or through qualitative checks that assess the validity of the information supplied. The number or quality of checks to be undertaken will vary depending on the diversity as well as the breadth and depth of information available from each source. Verification that the client is the data-subject also needs to be conducted within the checking process.

- ii. Capital Market Operators shall obtain separate evidence of the applicant’s permanent residential address from the best available evidence, preferably from an official source. A “P.O. - iii. Relevant evidence shall be obtained by the Capital Market Operator directly from the clients or through a reputable credit or Capital *Market Operator* in the applicant’s home country or country of residence. Capital Market Operators shall ensure that the client’s true identity and current permanent address are actually confirmed. In such cases, copies of relevant identity documents shall be sought and retained.

iii. **Corporations/Partnerships**

- a. For corporations/partnerships, the principal guidance is to look behind the Operator to identify those who have control over the business and the company's/partnership's assets, including those who have ultimate control.

- b. For corporations, particular attention shall be paid to shareholders, signatories, or others who inject a significant proportion of capital or financial support or otherwise exercise control. Where the owner is another Capital Market Operator or trust, the objective is to undertake reasonable measures to look behind that company or entity and to verify the identity of the principals.
- c. What constitutes control for this purpose will depend on the nature of a company, and may rest in those who are mandated to manage the funds, accounts or investments without requiring further authorisation, and who would be in a position to override internal procedures and control mechanisms.
- d. For partnerships, each partner shall be identified and it is also important to identify immediate family members that have ownership control.
- e. Where a company is listed on a recognised securities exchange or is a subsidiary of such a company then the company itself may be considered to be the principal to be identified. However, consideration shall be given to whether there is effective control of a listed company by an individual, small group of individuals or another corporate entity or trust. If this is the case then those controllers shall also be considered to be principals and identified accordingly.

c. Other Types of Operators

- i. The following information shall be obtained in addition to that required to verify the identity of the principals in respect of Retirement Benefit Programmes, Mutuels/Friendly Societies, Cooperatives and Provident Societies, Charities, Clubs and Associations, Trusts and Foundations and Professional Intermediaries:

Where an occupational pension programme, employee benefit trust or share option plan is an applicant for an account the trustee and any other person who has control over the relationship such as the administrator, programme manager, and account signatories shall be considered as principals and the capital Market Operator shall take steps to verify their identities.

iv **Mutual/Friendly, Cooperative and Provident Societies**

Where these entities are client the principals to be identified shall be considered to be those persons exercising control or significant influence over the organisation's assets. This often includes Board members, executives and account signatories.

v **Charities, Clubs and Associations**

In the case of accounts to be opened for charities, clubs, and societies, the Capital Market Operators shall take reasonable steps to identify and verify at least two signatories along with the operator itself. The principals who shall be identified shall be considered to be those persons exercising control or significant influence over the organization's assets.

This includes members of the governing body or committee, the President, Board members, the Treasurer, and all signatories.

In all cases, independent verification shall be obtained that the persons involved are true representatives of the operators.

vi. **Trusts and Foundations**

When opening an account for a Trust, the Capital Market Operator shall take reasonable steps to verify the trustees, the settlor (including any persons settling assets into the trust) any protector, beneficiary and signatories. Beneficiaries shall be identified when they are defined. In the case of a foundation, steps shall be taken to verify the founder, the managers/directors and the beneficiaries.

vii. **Professional Intermediaries**

When a professional intermediary opens a client account on behalf of a single client, that client must be identified. Professional intermediaries will often open "pooled" accounts on behalf of a number of entities. Where funds held by the intermediary are not co-mingled but where there are "sub-accounts" which can be attributable to each beneficial owner, all beneficial owners of the account held by the intermediary shall be identified. Where the funds are co-mingled, the Capital Market Operator shall look through to the beneficial-owners. However, there may be circumstances that Capital Market Operator may not look beyond the intermediary (e.g. when the intermediary is subject to the same due diligence standards in respect of its client base as the Capital Market Operator).

viii. Where such circumstances apply and an account is opened for an open or closed ended investment company (unit trust or limited partnership) also subject to the same due diligence standards in respect of its client base as the Capital Market Operator, the following shall be considered as principals and the Capital Market Operator shall take steps to identify them:

(a) The fund itself;

- (b) Its directors or any controlling board (where it is a company)
- (c) Its Trustee (where it is a Unit Trust)
- (d) Its managing (general) partner (where it is a limited partnership)
- (e) Account signatories;
- (f) Any other person who has control over the relationship such as fund administrator or manager.

(ix) Where other investment vehicles are involved, the same steps shall be taken as in above (where it is appropriate to do so). In addition, all reasonable steps shall be taken to verify the identity of the beneficial owners of the funds and of those who have control over the funds.

(x) Intermediaries shall be treated as individual clients of the Capital Market Operator and the standing of the intermediary shall be separately verified by obtaining the appropriate information itemized above.

4. **Non Face-to-Face Identification**

- i. In view of possible false identities and impersonations that may arise with non face-to-face clients, additional measures/checks shall be undertaken to supplement the documentary or electronic evidence.

These additional measures/checks will apply whether the applicant is resident in Nigeria or elsewhere and shall be particularly robust where the applicant is requiring a margin facility or other product/service that offers money transmission or third party payments.

- ii. Procedures to identify and authenticate the client shall be put in place to ensure that there is sufficient evidence either documentary or electronic to confirm his address and personal identity and to undertake at least one additional check to guard against impersonation and fraud.

- iii. The extent of the identification evidence required will depend on the nature and characteristics of the product or service and the assessed risk.
 - a. If reliance is being placed on intermediaries to undertake the processing of applications on the client behalf, checks shall be undertaken to ensure that the intermediary are regulated for money laundering prevention and that the relevant identification procedures are applied. In all cases, evidence as to how identity has been verified shall be obtained and retained with the account opening records.
 - b. Capital Market Operators shall conduct regular monitoring of internet-based business/clients. If a significant proportion of the business is operated electronically, computerized monitoring systems /solutions that are designed to recognize unusual transactions and related patterns of transactions shall be put in place to recognize suspicious transactions. AML/CFT compliance officers are required to review these solutions, record exemptions and report same quarterly to the SEC and NFIU.

5. Establishing Identity for Refugees and Asylum Seekers

- i. A refugee and asylum seeker may require a basic account without being able to provide evidence of identity. In such circumstances, authentic references from Ministry of Internal Affairs or an appropriate government agency shall be used in conjunction with other readily available evidence.
- ii. Additional monitoring procedures shall however be undertaken to ensure that the use of the account is consistent with the client circumstances and returns rendered quarterly to NFIU.

6. Establishing Identity for Students and Minors

- i. When opening accounts for students or other young persons, the normal identification procedures set out in this Manual shall *be* followed as far as possible. Where such procedures would not be relevant or do not provide satisfactory identification evidence, verification could be obtained:

- a. via the home address of the parent(s); or
 - b. by obtaining confirmation of the applicant's address from his/her institution of learning; or
 - c. by seeking evidence of a tenancy agreement or student accommodation contract.
- ii. Often, an account for a minor will be opened by a family member or guardian. In cases where the adult opening the account does not already have an account with the Capital Market Operator, the identification evidence for that adult, or of any other person who will operate the account shall be obtained in addition to obtaining the birth certificate or passport of the child. It shall be noted that this type of account could be open to abuse and therefore strict monitoring shall be undertaken, and reports made and rendered quarterly to NFIU.
 - iii. For accounts opened through a school-related scheme, the school shall be asked to provide the date of birth and permanent address of the pupil and to complete the standard account opening documentation on behalf of the pupil.

B. Quasi Corporate Clients

1. Establishing Identity - Trust, Nominees and Fiduciaries

- a. Trusts, nominee companies and fiduciaries are popular vehicles for criminals wishing to avoid the identification procedures and mask the origin of the criminal money they wish to launder. The particular characteristics of Trust that attract the genuine clients, the anonymity and complexity of structures that they can provide are also highly attractive to money launderers.
- b. Identification and "Know Your Business" procedures shall be set and managed according to the perceived risk, in trust, nominees and fiduciaries accounts.
- c. The principal objective for money laundering prevention via trusts, nominees and fiduciaries is to verify the identity of the provider of funds such as the settlor, those who have control over the funds (the trustees and any controller who have the power to remove the

trustees). For discretionary or offshore Trust, the nature and purpose of the Trust and the original source of funding must be ascertained.

- d. Whilst reliance can often be placed on other Capital Market Operators that are to undertake the checks or confirm identity, the responsibility to ensure that this is undertaken rests with the Capital Market Operator. The underlying evidence of identity must be made available to law enforcement agencies in the event of an investigation.
- e. Identification requirements must be obtained and not waived for any trustee who does not have authority to operate an account and cannot give relevant instructions concerning the use or transfer of funds.

2. **Offshore Trusts**

- a. Offshore Trusts present a higher money laundering risk and therefore additional measures are needed for Special Purpose Vehicles (SPVs) or International Business Companies connected to Trusts, particularly when Trusts are set up in offshore locations with strict bank secrecy or confidentiality rules. Those created in jurisdictions without equivalent money laundering procedures in place shall warrant additional enquiries.
- b. Unless the client for business is itself a regulated Capital Market Operator, measures shall be taken to identify the Trust company or the corporate service provider in line with the requirements for professional intermediaries or companies generally.
- c. Certified copies of the documentary evidence of identity for the underlying principals such as settlors, controllers, etc. on whose behalf the client for business is acting, shall also be obtained.
- d. For overseas Trusts, nominee and fiduciary accounts, where the client is itself a Capital Market Operator that is regulated for money laundering purposes:

- i. reliance can be placed on an introduction or intermediary certificate letter stating that evidence of identity exists for all underlying principals and confirming that there are no anonymous principals;
 - ii. the trustees/nominees shall be asked to state from the outset the capacity in which they are operating or making the application;
 - iii. documentary evidence of the appointment of the current Trustees shall also be obtained.
- e. Where the underlying evidence is not retained within Nigeria, enquiries shall be made to determine, as far as practicable, that there are no overriding bank secrecy or confidentiality constraints that will restrict access to the documentary evidence of identity, shall it be needed in Nigeria.
- f. Any application to open an account or undertake a transaction on behalf of another without the client identifying their Trust or Nominee capacity shall be regarded as suspicious and shall lead to further enquiries and rendition of reports to SEC and NFIU.
- g. Where a Capital Market Operator in Nigeria is itself the client to an offshore Trust on behalf of its clients, if the corporate Trustees are not regulated, then the Nigerian Capital Market Operator shall undertake the due diligence on the Trust itself.
- h. If the funds have been drawn upon an account that is not under the control of the Trustees, the identity of two of the authorized signatories and their authority to operate the account shall also be verified. When the identities of beneficiaries have not previously been verified, verification shall be undertaken when payments are made to them.

3. **Conventional Family and Absolute Nigerian Trusts**

- a. In the case of conventional Nigerian Trusts, identification evidence shall be obtained for:
 - i. those who have control over the funds (the principal trustees who may include the settlor);

- ii. the providers of the funds (the settlors, except where they are deceased);
 - iii. Where the settlor is deceased, written confirmation shall be obtained for the source of funds (grant of probate or copy of the Will or other document creating the Trust).
- b. Where a corporate Trustee such as a bank acts jointly with a co-Trustee, any non-regulated co-Trustees shall be verified even if the corporate Trustee is covered by an exemption. The relevant guidance contained in this Manual for verifying the identity of persons, institutions or companies shall be followed.
- c. Although a Capital Market Operator may not review any existing Trust, confirmation of the settlor and the appointment of any additional Trustees shall be obtained.
- d. Copies of any underlying documentary evidence shall be certified as true copies. In addition, a check shall be carried out to ensure that any bank account on which the Trustees have drawn funds is in their names. Taking a risk based approach, consideration shall be given as to whether the identity of any additional authorized signatories to the account shall also be verified.
- e. It is a normal practice for payment of any trust property to be made to all the Trustees. As a matter of practice, some life assurance companies make payments directly to beneficiaries on receiving a request from the Trustees. In such circumstances, the payment shall be made to the named beneficiary by way of a crossed cheque marked "account payee only" or a bank transfer direct to an account in the name of the beneficiary.

4. Receipt and Payment of Funds

- a. Where money is received on behalf of a Trust, reasonable steps shall be taken to ensure that:
 - i. the source of the funds is properly identified; and
 - ii. the nature of the transaction or instruction is understood.
- b. It is also important to ensure that payments are properly authorized in writing by the Trustees.

c. **Identification of New Trustees**

Where a Trustee who has been verified is replaced, the identity of the new Trustee shall be verified before he/she is allowed to exercise control over the funds.

d. **Life Policies Placed in Trust**

Where a life policy is placed in Trust, the client for the policy is also a Trustee and where the Trustees have no beneficial interest in the funds, it shall only be necessary to verify the identity of the person applying for the policy. The remainder of the Trustees would however need to be identified in a situation where policy proceeds were being paid to a third party not identified in the trust deed.

e. **Powers of Attorney and Third Party Mandates**

(a) The authority to deal with assets under a Power of Attorney and Third Party Mandates constitutes a business relationship. Consequently, at the start of the relationship, identification evidence shall be obtained from the holders of powers of attorney and third party mandates in addition to the clients or subsequently on a later appointment of a new attorney, if advised, particularly within one year of the start of the business relationship. New attorney for corporate or Trust business shall always be verified. The most important requirement is for Capital Market Operator to ascertain the reason for the grant of the power of attorney.

(b) Records of all transactions undertaken in accordance with the Power of Attorney shall be maintained as part of the client's record.

v. **Executorship accounts**

a. When an account is opened for the purpose of winding up the estate of a deceased person, the identity of the executor /administrator of the estate shall be verified.

b. However, identification evidence would not normally be required for the executors/administrators when payment is being made from an

established bank or mortgage institution's account in the deceased's name, solely for the purpose of winding up the estate in accordance with the Grant of Probate or Letters of Administration. Similarly, where a life policy pays out on death, there shall be no need to obtain identification evidence for the legal representatives.

- c. Payments to the underlying named beneficiaries on the instructions of the executor or administrator may also be made without additional verification requirements. However, if a beneficiary wishes to transact business in his/her own name, then identification evidence shall be required.
- d. In the event that suspicion is aroused concerning the nature or origin of assets comprising an estate that is being wound up, report is required to be rendered to NFIU.

vi. **Unincorporated Business/Partnerships**

- a. Where the client is an un-incorporated business or a partnership whose principal partners/controllers do not already have a business relationship with the Capital Market Operators, identification evidence shall be obtained for the principal beneficial owners/controllers. This would also entail identifying one or more signatories in whom significant control has been vested by the principal beneficial owners/controllers.
- b. Evidence of the trading address of the business or partnership shall be obtained.
- c. The nature of the business or partnership shall be ascertained (but not necessarily verified from a partnership deed) to ensure that it has a legitimate purpose. Where a formal partnership arrangement exists, a mandate from the partnership authorizing the opening of an account or undertaking the transaction and conferring authority on those who will undertake transactions shall be obtained

C. Pure Corporate Clients

1. General Principles

- a. Complex organizations and their structures, other corporate and legal entities are the most likely vehicles for money laundering. Those that are privately owned are being fronted by legitimate trading companies. Care shall be taken to verify the legal existence of the client company from official documents or sources and to ensure that persons purporting to act on its behalf are fully authorized.

Enquiries shall be made to confirm that the legal person is not merely a "brass-plate company" where the controlling principals cannot be identified.

- b. The identity of a corporate company comprises:
 - i. registration number;
 - ii. registered corporate name and any trading names used;
 - iii. registered address and any separate principal trading addresses;
 - iv. particulars of directors;
 - v. owners and shareholders; and
 - vi. the nature of the company's business.
- c. In addition, the money launderer is not concerned if there is a cost involved in laundering criminal money. New issues that trade at a discount will, therefore, still prove acceptable to the money launderer. - iii. Where the original application has been submitted by a regulated broker, no additional identification evidence will be necessary for subsequent calls in respect of shares issued and partly paid.

D. Applications Received from Foreign Brokers

If the broker or other introducer is a regulated person or institution (including an overseas branch or subsidiary) from a country with equivalent legislation and financial sector procedures, and the broker or introducer is subject to anti-money laundering rules or regulations, then a written assurance can be taken from the broker that he/she has obtained and recorded evidence of identity of any principal and underlying beneficial owner that is introduced.

Other monetary amounts or more may, from time to time, be stipulated by any applicable money laundering legislation/guidelines.

- i. If it appears to a person handling applications that a number of single applications under US\$1,000 and N500, 000 in different names are linked (e.g. payments from the same Capital Market

Operator account) apart from the multiple family applications above, identification evidence shall be obtained in respect of parties involved in each single transaction.

- ii. Installment payment issues shall be treated as linked transactions where it is known that total payments will amount to US\$1,000 or its equivalent for foreign transfers or N250,000 for an individual; or N500,000 for body corporate or such other monetary amounts as may, from time to time, be stipulated by any applicable money laundering legislation or guidelines. Either at the outset or when a particular point has been reached, identification evidence shall be obtained.

Cash remittances and wire transfers (either inward or outward) or other monetary instruments that are undertaken against payment in cash for clients who do not have an account or other established relationship with

the Capital Market Operator (i.e. walk –in clients) present a high risk for money laundering purposes. It is therefore required that adequate procedures are established to record the transaction and relevant identification evidence taken, where necessary. Where such transactions form a regular part of the Capital Market Operator’s business, the limits for requiring identification evidence of US \$1,000 or its equivalent for foreign transfers; N250,000 for individual and N500,000 for a corporate body must, however, be observed.

iii. **Re-investment of Income**

The proceeds of a one-off transaction can be paid to a client or be further re-invested where records of his identification requirements were obtained and kept. In the absence of this his/her identification requirements shall be obtained before the proceeds are paid to him or be re-invested on his behalf in accordance with the relevant provision of this Manual.

29. **SANCTIONS FOR NON-COMPLIANCE WITH KYC**

Failure to comply with the provisions contained in this Manual will attract appropriate sanction in accordance with Money Laundering Act/Combating Financing Terrorism laws and as detailed in the Anti Money Laundering Act/Combating Financing Terrorism section of this Manual.
